# Experience:

## Front-End Developer | Part Time

06/2024 - Present

**Octapro Solution PVT. LTD.**

**Surat, Gujrat, India.**

- Independently Developed dynamic user interfaces for a Customer Relationship Management (CRM) system using HTML5, CSS3, Bootstrap, SCSS, JS & jQuery as a stand-alone Developer, managing all aspects of the project from inception to deployment.
- Using AI tools like ChatGPT and GitHub Copilot inside VS Code to get in-line coding help and quickly handle repetitive tasks, working more efficiently.
- Integrated APIs to fetch and display dynamic data, and implemented key features including search, filters, record creation, and deletion for enhanced user interaction.
- Developed an Attendance Management System within the CRM, implemented a custom-built calendar to dynamically display status like Present, Absent, Leave, Holiday along with check-in/out times.
- Integrated Google Maps JavaScript API to provide location-based functionalities within the application.
- Leveraged plugins like jQuery DataTable & jQuery DateTimepicker, Select2, and ApexCharts.js to enhance functionality and user experience.
- Created a mobile-view version of the CRM, used Bootstrap Offcanvas instead of modal for better mobile view experience.
- Collaborated with backend developers to integrate RESTful APIs built with PHP, enabling dynamic data fetching and display in the CRM.
- Engineered modular and reusable code, streamlining future enhancements and ensuring scalability.
- Ensured cross-browser compatibility and responsive design for all features to enhance accessibility and usability.

## Front End Developer | Full Time

03/2022 - 10/2023

**PaperPlane Design Solutions PVT. LTD.**

**Mumbai, Maharashtra, India.**

- Converting design mock-ups into fully functional, responsive and pixel-perfect web pages.
- Using HTML5 semantic tags for better SEO performance & maintain semantic layout.
- Expertise in analysing the DOM Layout, Cascading styles across cross-browser using Developer Tool.
- Developing client-side validation code using JavaScript or jQuery.

- Developing application-level CSS using CSS preprocessor i.e., SASS.
- Optimizing the page for various search engines by following standard SEO guidelines.
- Accomplished in integrating GSAP/Greensock plugin for animations.
- Implemented animated stories using GSAP plugin scrollTrigger & scrollObserver.
- Test and optimize the page for performance using Google page speed, ySlow and Google Chrome inspect tool Lighthouse.
- Developing cross browser and multi browser compatible web pages using HTML5, CSS3 JavaScript & React.
- Skilled in building interactive user interfaces using ReactJS, creating reusable components, managing state and props and working with React Hooks and React Router.
- Contributing to a modular and scalable codebase, reducing development time for future.
- Creating Components of ReactJS using Material UI, Customising MUI Components.
- Successfully integrated RESTful APIs into the React application, using library like Axios for seamless data retrieval and synchronization between the Frontend and Backend. Implemented efficient error handling and optimized data fetching processes.
- Ensuring a flawless user experience and optimized the interface across various Browsers/Devices/Platforms and screen sizes.
- Proficient in using Git for version control, collaborating with teams, and deploying applications using platforms like GitHub and Bitbucket.

## **Web Developer | Internship**

**05/2021 - 11/2021**

**Zobble Solutions PVT. LTD.**

**Mumbai, Maharashtra, India.**

- Developed UI according to the mock-ups using HTML5, CSS3, JavaScript & it's library i.e., jQuery.
- Developed UI from Scratch, including its animations and Interaction functionality.
- Excellence in CSS3, e.g., Specificity and CSS3 animations.
- Resolved Browsers compatibility issues, solving all conflicts for Firefox users.
- Solving bugs, solving errors which occurs when running on different browsers.
- Aided Fellow Developers by contributing to design and coding.

## **CAD Operator | Full Time**

**03/2017 - 02/2021**

## Shree Rashmi Dresses.

### Mumbai, Maharashtra, India.

- Creating & digitizing the design using digitiser.
- Grading the design for all sizes e.g., 0 to 14.
- Making markers for plot according to their size ratio.
- Printing and plotting the marker for record purpose and for cutting.
- Giving CNC file for the cutter with GMS.
- Merging the different sizes according to the ratio for better efficiency.
- Coordinating with HOD Master, CNC Master & cutting master's to deliver very efficient marker.

## Projects:

- **Dashboard.**
  - I have created **ReactJS** Dashboard using **d3.js** for charts, charts data updates on select dropdown and button click events.
  - I have also used Material UI for Theming and style purpose.
  - It is completely responsive for the devices such as Desktop/Laptop/Tablet/Mobile.
  - Link: <https://yusuf-dashboard-react.netlify.app/>
- **Clothes Store.**
  - I Developed Clothes Store Using **HTML5 & SCSS**.
  - Created Custom Variables, Mixins and used partials & import.
  - The effect of Featured Products hover & Slide effect on Hero/Banner section is working. Using SCSS & CSS3 animations, JS or jQuery is not used.
  - Link: <https://yusuf0786.github.io/clothes-store/>
- **Alchemy.**
  - This website I created using **Bootstrap 5** framework of CSS.
  - Customised Bootstrap Navigation and Bootstrap Carousel.
  - Link: <https://yusuf0786.github.io/Alchemy/>
- **Cascade.**
  - I Have Built this on **CSS Grid** with HTML, jQuery and JavaScript.
  - Link: <https://yusuf0786.github.io/cascade-grid>
